## **WHY VICE-PRESIDENT SAM SUMANA WAS IN THE USA**

By Foday Mansaray

Sierra Leone has always been known for its wealth of natural resources or the brutal war of the 90's, which cost us 50,000 human lives , billions of dollars of infrastructural damage and the stigma of being dubbed one of the poorest countries in the world.

Today, April 10, 2008 saw the people of Sierra Leone being honored by MIRACLE CORNERS OF THE WORLD for taking that miraculous step towards building peace, prosperity and democracy that involved the talents of the citizens especially its youth. All Sierra Leoneans should be proud of this milestone achievement, especially when well- known countries are folding up and unable to get out of war. Sierra Leone on the other hand is consolidating itself under the leadership of President Koroma and striving to build once again a nation that could be the envy of West Africa, the home of the original free slaves and the land we call the city of free.

At hand was the Honorable Vice President of Sierra Leone, His Excellency Samuel Sam Sumana to receive a prestigious award on behalf of the President and the people of Sierra Leone. This evening all Sierra Leoneans should be proud, as its marked the turning point to win the endorsement of so many philanthropist organization and world businesses .During the business forum discussion with the Vice President earlier in the day, the businesses made an important endorsement of Sierra Leone. The jam- packed auditorium of over 500 peoples cheered Sierra Leone for her achievement.

Cocorioko is proud to say thanks to Mr. Eddie, his Board of Directors, thousands of volunteers worldwide and Donors who made the 4th annual gala dinner a success.

The young philanthropist who just finish college is taking this mantle of responsibilities to bring together so many good people especially in the name of

Sierra Leone and underprivileged kids around the world including those in America.

We will bring you full details of Eddie and the Miracle Corners of the World on our weekend update.
